MESSAGE

CEO's Message

**“Building trust in the field, leading growth through technology,
shaping a sustainable future.”**

Since starting as a small Yeongdo ship chandler in 1992, we have spent 34 years delivering what vessels need, quickly and accurately.

Since then we have grown: Sehwa Machinery (2018) for engine parts, the Changwon Plant (2021) for hull blocks, Maeil Cerachem (2023) for ballistic materials, and Samyang Trading (2025) for chemicals.

Our principle has not changed: the right goods at the promised time. Nationwide port coverage, a 4,769 m² logistics base and four KR-certified systems exist to keep that promise.

CEO, Mae Il Marine **Myung Jin Kim**
